

Open House and Public Hearing for the Corridor Cities Transitway

The Corridor Cities Transitway (CCT) is the transit component of the I-270/US 15 Multi-Modal Corridor Study to address congestion, improve safety and increase mobility in Montgomery County. Join us on December 15th to review and comment on this proposed 13 to 15-mile bus rapid transit or light rail transit system that would extend north from the Shady Grove Metrorail Station in Rockville to COMSAT, just south of Clarksburg, MD.

The purpose of the open house is to review the recently completed CCT Supplemental Environmental Assessment, with modifications near Crown Farm, Life Sciences Center and Kentlands in Gaithersburg, and other new developments since the last open house in June 2009.

Although there will be no formal presentation, a brief welcome and introduction will begin at 6:00 PM. An opportunity for public testimony will follow this introduction. Testimony will be limited to three minutes per person. Testimony can also be provided privately to a court reporter or written on comment cards.
