

# Nominate Yourself to Serve on a CCT Area Advisory Committee!

## Get Involved in CCT Planning Efforts in Your Community

As a part of the Maryland Transit Administration's commitment to the Corridor Cities Transitway (CCT), we would like to announce the establishment of Area Advisory Committees (AACs).

These committees will provide community stakeholders (station area residents, businesses, churches, community organizations, and institutions) the opportunity to participate in the process of designing how the 14 proposed transit stations will integrate into their communities. By working with designers, architects, land use professionals, and planners, these committees will advise the MTA on the following important decisions:

- **Station Design and Amenities**
- **Traffic Management**
- **Transit Operations**
- **Safety and Security**
- **Transitway Access**
- **Community Interface**

Each of the 14 proposed station areas will be assigned to one of four committees. Committees will be responsible for more than one station area but committee meeting agendas may concentrate on a specific station depending on the level of interest expressed. To maximize participation and maintain manageable meetings, each committee will have 15 to 20 members.

If you would like to learn more about the committees, the nominee selection process, or obtain a self nomination form, you can visit our website at [www.mta.maryland.gov/cct](http://www.mta.maryland.gov/cct).

~~**Nominations will be accepted until December 3, 2013.**~~

**The deadline has been extended to December 31, 2013.**
